

Multnomah County Library

Renew your wonder

We recast the library in contemporary terms as a place for endless possibilities, revitalizing the resource for existing users while elevating appreciation among nonusers for the doors the library opens for people. With a new logo and line in place, we developed the design standards to lead to an entire rebranding for Multnomah County Library's 21 locations.

"It was a joy to work with Coates Kokes and the results, reliability, quality of the work and relationship developed was outstanding."

—Jeremy Graybill, Multnomah County Library
